Third-Party Usage

In order to provide comprehensive training and support to our students preparing for the NCLEX RN, NCLEX-PN, Rex- PN exam, from time to time, we may collaborate with trusted third-party firms. These partnerships are established to enhance our educational services and improve the learning experience. We want to ensure transparency regarding the usage of these third-party services and how they may collect and process personal data. Currently, we are using the materials supplied by **NurseAchieve**. We may change these services at any time without any notice to the students.

Here is an outline of the third-party services we utilize:

1. **Content and Study Materials:** We may engage with third-party publishers or educational resource providers to offer students relevant study materials, textbooks, and online resources. These materials may be accessed through our platform or recommended to students for further study. Please note that the collection and processing of personal data by these third-party providers are subject to their own privacy policies, and we encourage students to review those policies independently.
2. **Practice Exam Platforms:** To provide students with realistic exam practice and assessment opportunities, we may integrate third-party platforms or software that specialize in delivering NCLEX RN practice exams. These platforms may collect student data such as performance metrics, progress tracking, and exam results to generate comprehensive reports and analysis. We ensure that these third-party platforms adhere to privacy regulations and maintain the confidentiality and security of student data.
3. **Virtual Classroom Tools:** Our coaching center may employ third-party virtual classroom platforms or video conferencing tools to facilitate online lectures, interactive sessions, and collaborative learning among students and

instructors. These platforms may require the collection of personal information, such as student names, email addresses, or device identifiers, to enable seamless communication and engagement. We strive to collaborate with reputable providers that prioritize data protection and privacy.

4. **Student Management Systems:** To efficiently manage student information, progress tracking, and administrative tasks, we may utilize third-party student management systems or learning management platforms.
